No Great Commercial Business has ever been established without advertising

EVENING BULLETIN

3:30 O'CLOCK BULLETIN ADVERTISING IS DEPENDABLE AND PROFITABLE EDITION

Everybody who can possibly buy goods reads a daily paper. Every merchant abreast of his opportunities and master of his business knows this and makes advertising the cardinal principle of his administration. The evidence of his enterprise and prudence is shown every day in the pages of the Evening Bulletin, because the Evening Bulletin goes to the people who buy goods.

GOV. FREAR PLANS LOAN EXPENDITURES

KOREA JAPANESE COME TO REMAIN

Will Not Take Passage In Indiana For Vancouver

The steamship Korea, Captain Sandberg, which arrived from Yokohama this morning docked at the Hackfeld wharf at 9 o'clock. She did not bring a heavy list of passengers for this port as was expected. Very few of the wives of officers of the fleet arrived. A large number of Chinese students, numbering about 15, were among the passengers. They are all going to Boston to enter one of the universities, in charge of a new Chinese consul who is assigned to one of the Chinese consulates in the States.

Purser W. A. Allen said that all the Chinese students are highly educated and were respected by their fellow passengers on the Korea. F. M. Bechtel, former immigrant inspector in charge of the local immigration service, is a through passenger on the Korea. He has resigned his position at Yokohama and is going to San Francisco to go into business. He was greeted by his many friends at the wharf.

About 310 Japanese immigrants were brought for Hawaii. They are being examined by the immigration officials this morning.

The trip was fine and there was no sickness or accident on board. She leaves for San Francisco this afternoon at 4 o'clock.

"Almost all the immigrants who arrived on the Korea this morning and who have been examined here at the

immigration station said they came here to stay," said Chief Inspector Brown this forenoon.

The above announcement is rather disappointing to the promoters of the Indiana expedition, who had been expecting to pick up many of the new arrivals. The consequence is that she will depart for Vancouver without the Japanese emigrants from the Korea. It is not quite certain when she is going, although she is ready to steam out of the harbor as soon as ordered. Up to 10 o'clock this morning no Vancouver-bound Japanese were seen going on board the Indiana, although there were some who were gazing at her.

POLICE COMPLAIN OF FLEET SAILORS

Say They Are Insulted When They Bring Stragglers

While the bluejackets from the fleet have been doing some kicking at the alleged rough treatment which they received of some of the members of the police department, the guardians of the peace on their side have some complaints to make about the way they are being treated by the sailors.

As is always the case when there are warships in port the police have been asked by the Naval authorities to assist them in rounding up the stragglers who overstay their leave ashore. The officers have picked up a number of these men, who are tak-

EVERYBODY MAKING OUT CERTIFICATES

Governor Busy Getting Campbell Ready To Sail

Governor Frear is making out certificates today. Secretary Mott-Smith is making out certificates. The stenographers of the Governor's office, of the Secretary's office, of the Attorney General's office, of the Superintendent of Public Works' office, are pounding out certificates.

These certificates are all to convince prospective buyers of Hawaiian bonds that the Territory has a right to issue the bonds, that the law has been complied with in all particulars, that the Legislature actually passed the laws and that they were properly signed by the Governor.

The certificates will certify that the Ponce Journal is correct, the Senate Journal correct, the Session Laws of 1907 correct. There will also be certified copies of the special laws in the Session Laws of 1907 relating to the bond issue, and certified copies of the law of 1903, and of the law of 1904 amending the 1903 law, relating to the issuance of bonds. Certified references to the Organic Act authorizing the Territory to issue bonds are also being made.

Armed with these documents, and the instructions of the Governor, Treasurer Campbell will sail for the Coast on the Korea at 4 o'clock this afternoon, to proceed to New York to raise money for the carrying out of public projects. Just how much money he will borrow is as yet uncertain.

Governor Frear stated this morning that he had not yet decided this question,—one which is causing considerable anxiety. The projects provided for by the Legislature, as told in the Bulletin yesterday, are the completion of the Nuuanu dam, the erection of certain school houses, to cost \$10,000, the building of a shed over Brewer's wharf, and the completion of the Kamuela waterworks. The total amount appropriated for these projects was \$308,500. But Governor Frear may decide to cut out some of these items, and, indeed, there is a belief that he will do so. In any case his decision will not be known until

(Continued on Page 5)

SCHOOLS OF HAWAII RESUME WORK MONDAY

The schools of the Territory are to commence work for the September term at 9 o'clock next Monday morning. All the teaching positions have been filled so far as Honolulu is concerned, except one, and there is only one vacancy to fill on Maui. As to Kaula and Hawaii, Superintendent Babbitt stated this morning that he was not sure yet. But in any case, he said, all positions would be filled and teachers on hand by the time school commences next Monday morning.

Not all of these teachers, however, will be the regular teachers. How many of these will not be on hand Mr. Babbitt does not know, and says

BACK TO SCHOOL
(Special Bulletin Wireless.)
Hilo, Hawaii, Sept. 6.—The Kinohiwa left on time today with her accommodations filled with a large number of teachers and pupils returning.

Mrs. Stackable Marries Bechtel

A license was issued today permitting the marriage of Mrs. E. R. Stackable and F. M. Bechtel, and, although no one can be found who will say positively, it is much more than probable that they are already husband and wife.

At 3:15 a phone message to Mrs. Stackable's house elicited the information from a female voice which sounded much like that of the lady herself, that Mrs. Stackable was going away on the steamer this afternoon, and the speaker should not be much surprised if the marriage had already taken place.

F. M. Bechtel, who was formerly inspector in chief of the Immigration Station, came through Honolulu today on the Korea and goes out on the same steamer. He must, therefore, have been on his way to Honolulu when the divorce was granted to Mrs. Stackable last week from Collector of the Port E. R. Stackable.

Campbell Resigns

A. J. Campbell has resigned from the Board of License Commissioners of the County of Oahu. This action is taken on account of his departure from the Territory for New York. He may be gone some time, and as the Board has frequent meetings, at which the presence of all the members is necessary, Campbell thought it best to get out and give the Governor an opportunity to fill his place.

FLEET ENJOYS PICTURES

There was a large crowd at the Hotel Bath last evening to enjoy the moving pictures. The show proved very interesting to those present. Tomorrow evening, Saturday, there will be another one of these high class and entertaining shows, which will interest all of the sailors. There will be some highly interesting subjects shown and they should attract a large crowd. The admission will be 25c.

GANS-NELSON FILMS ARE DELAYED

Jess Woods received a cablegram from Miles Brothers of San Francisco yesterday to the effect that they were unable to get films off on the Persia but would forward same on the Nevada, which sailed a couple of days later. This will postpone the date of

Territory To Borrow

In New York

\$288,000 On Bonds

NO PROVISION FOR HILO WHARF

The amount of money which the Territory of Hawaii will borrow in New York through the issuance of bonds is \$288,000. This was settled upon by Governor Frear today after he had gone over the matter thoroughly.

Money will be borrowed to call out all the projects provided for by the legislative appropriation, except the extension of the Hilo wharf. The amount for the extension of the Kamuela, Hawaii, water works, also, is cut from \$1500, as appropriated by the Legislature, to \$1000. Governor Frear states that he considers this amount enough to complete the work, and as the bonds to be issued are to be \$1000, the total would not come out 100.

Even if \$1500 were allowed for this small project.

Treasurer Campbell leaves at 4 o'clock this afternoon on the Korea

Hilo loses on its wharf extension for the Coast, on route to New York, project, for the present, although Gov-

Hawaii Shaken By Sharp 'Quake

(Special Bulletin Wireless.)

Hilo, Hawaii, Sept. 6.—A sharp earthquake shock was felt here at eight minutes of seven last evening. The quake was felt all over the island of Hawaii and was especially hard in Kohala, at Papakou and Kau. A slight second shock was felt thirty seconds later.

Hilo buildings creaked and swayed in a long movement and the foundations trembled. Liquid in full bottles was upset. The general opinion is that this shock is the worst since 1882.

Communication with the Volcano is interrupted.

the exhibition here. The exact date will be announced later. It is hoped that they will arrive while the fleet is in port.
